BRINGING CLARITY
TO THE QCF

The Qualification and Credit Framework

There are big changes happening in the world of vocational education and we are here to bring clarity, guiding you through the move to the Qualifications and Credit Framework (QCF) and more flexible qualifications in replacement of NVQ Qualifications.

The QCF is the new government framework which sets out how all regulated vocational qualifications are structured, titled and quality assured. It is replacing the existing National Qualifications Framework across England, Wales and Northern Ireland - which is set to close for registrations end of March 2011. The QCF is already up and running. All current qualifications will be reviewed and redeveloped for the QCF. City & Guilds is leading the way with over 500 credit-rated qualifications on the new framework, which Linden Management is an approved Centre.

Current Linden Management can offer funded training for the following QCF Qualifications:

Warehousing & Storage Level 2 QCF

Warehousing & Storage Level 2 Apprenticeship, which includes:

- QCF
- Technical Certificate
- Functional Skills; English & Maths Level 1

Logistic Operations Level 3 QCF

Car Park Operations Level 2 QCF

Award, Certificate and Diploma in Proficiency in Food Manufacturing Excellence Level 2 QCF

For information on any of the above qualifications
