

Food safety for manufacturing

Level 3 award

Overview

The number one qualification for food safety in a manufacturing environment.

That's why the Highfield Level 3 Award in Food Safety for Manufacturing is the market leading qualification for food safety in manufacturing environments.

Designed to assist learners who wish to progress to higher or supervisory level within a food manufacturing business, the qualification is ideal for ensuring compliance with the law and giving learners the opportunity for personal growth and development.

Topics covered include:

- Ensuring compliance with food safety legislation
- The application and monitoring of good hygiene practice
- How to implement food safety management procedures
- The application and monitoring of good practice regarding contamination, microbiology and temperature control

How long will it take me to achieve this qualification?

This qualification is usually achieved by taking a 3 day classroom-based course. This course is normally run in the workplace for small groups of learners.

How is the qualification assessed?

This qualification is assessed by multiple-choice examination, externally set and marked by Highfield. Learners must complete 45 questions within 90 minutes. Successful learners will have to demonstrate knowledge and understanding across the qualification syllabus and achieve a pass mark of 66% (30/45). Learners will receive a Distinction if they achieve a pass mark of 80% (36/45). This qualification is graded pass/distinction/fail.

Who requires the qualification?

Supervisors/managers and future supervisors and managers. The training of food handlers is a legal requirement, and the key to profitability and high standards of food safety is to train supervisors and managers and ensure their competency.
