

HACCP for manufacturing

Level 2 award

Overview

The majority of regulated level 2 HACCP for food manufacturing qualifications in the UK are achieved with the Highfields accredited qualification.

The qualification is intended for candidates already working in food manufacturing and those who are preparing to work in the industry.

We've been regarded as food safety experts for over 24 years.

This market-leading qualification is for those involved in maintaining HACCP in a manufacturing environment, and for those who are or will be part of a HACCP team.

Topics covered include:

- Principles of HACCP
- Procedures required to develop HACCP
- How the principles of HACCP are applied in a food production environment

How is the qualification assessed?

This qualification is assessed by multiple-choice examination, externally set and marked by Highfield Qualifications.

The examination contains 15 questions, that must be completed within 30 minutes. Successful learners will have to demonstrate knowledge across the unit content and correctly answer 9 questions or more to achieve a pass.

This qualification is graded pass/fail.

How long will it take me to achieve this qualification?

This qualification is usually achieved by taking a 1 day classroom-based course. This course is normally run in the workplace for small groups of learners.
